The Dzorniva Seat Collection

The Dzorniva 2-seater collection, inspired by the Valaisan patois term referring to a day's work in the alpine pastures, pays tribute to daily life in the highlands and to the nobility of the mountains. The grey tones of the stones, the natural shades of oak, and the wool echo the elements that bring this environment to life.

This collection of 2-seater chairlifts, sourced from the La Valais de Naax ski area, embodies the DNA of Iconicrafts: creating unique objects infused with history. This outdoor bench honors the mountain in its most authentic form, which inspired its Valaisan name, Dzorniva.
